

**Dongbu HiTek**

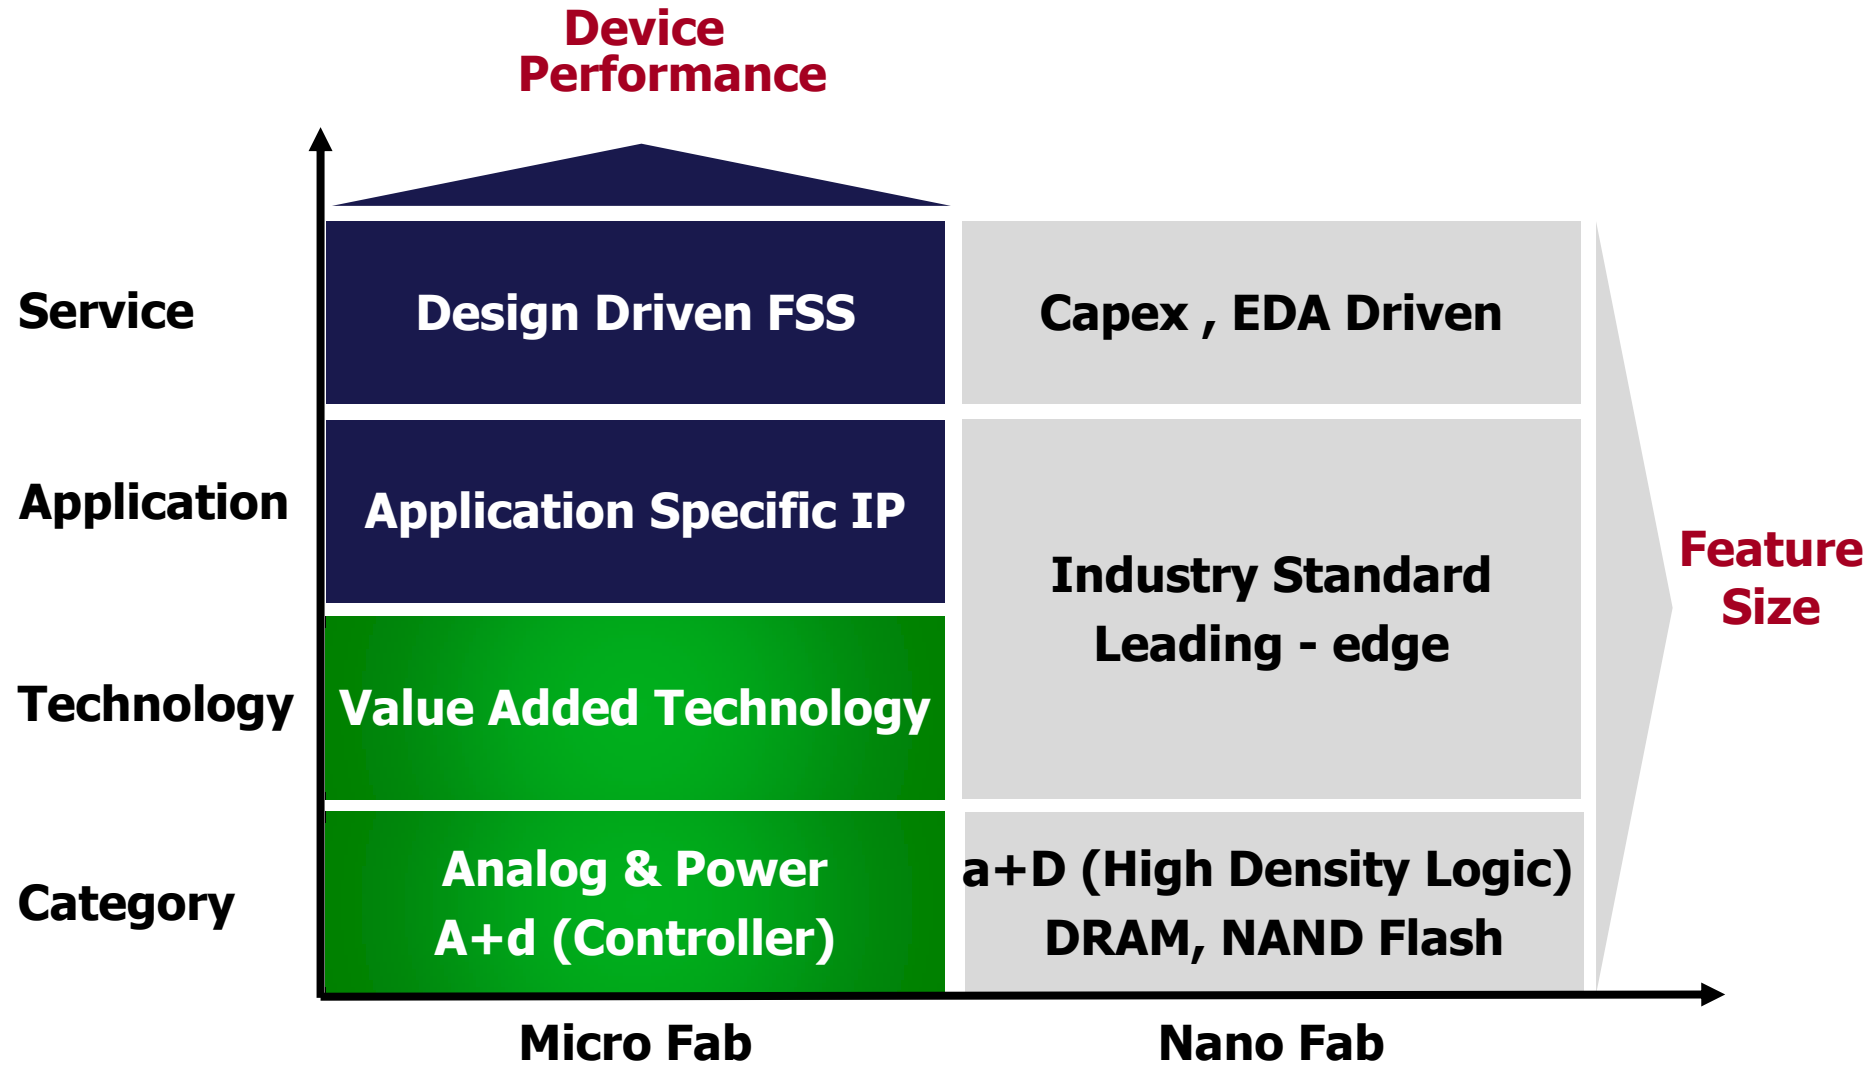

# **Technology Enabling for Specialty Foundry**

**October 10, 2012**

**Taek-Soo Kim  
VP of Technology Enabling  
DongBu HiTek, Co., Ltd.**

- **Introduction**
  - ✓ **Specialty Foundry Strategy**
  - ✓ **Technology Enabling**
- **Application Specific IP (AS IP)**
- **Process Design Kit (PDK)**
- **Conclusion**

# Specialty Foundry Strategy

# Technology Enabling

## Fabless

Technology

Fab Process

## Foundry

Technology  
Enabler

Device

Technology

Fab Process

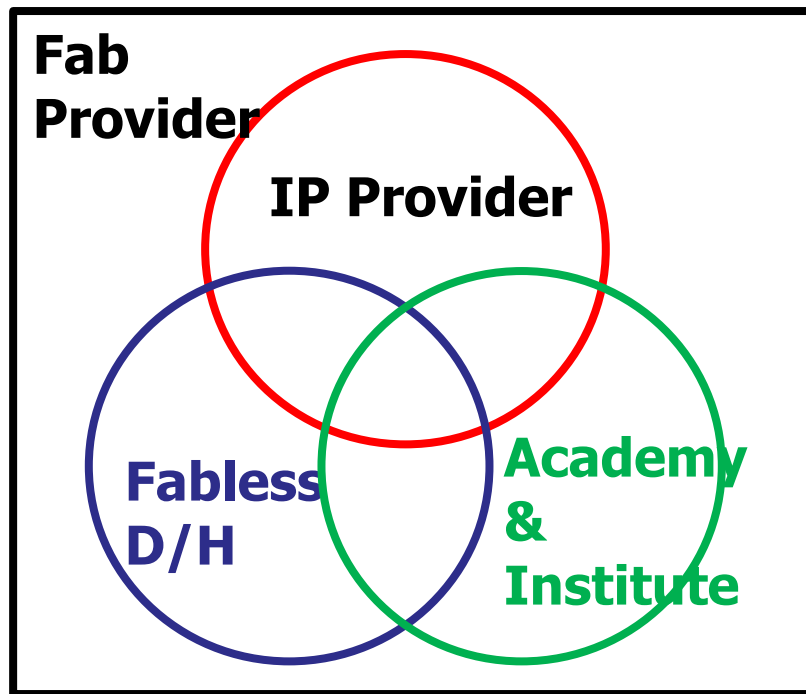

## Differentiation

- Application Specific IP
  - ✓ Highly Process Dependent IP
  - ✓ Standard I/F Protocol
- Robust Process Design Kit
  - ✓ Accurate models
  - ✓ Complete Verification
  - ✓ Advanced Utility

- Introduction
  - ✓ Specialty Foundry Strategy
  - ✓ Technology Enabling
- **Application Specific IP (AS IP)**
- Process Design Kit (PDK)
- Conclusion

# AS IP : IP Clouding

## AS IP Pool

## IP Clouding

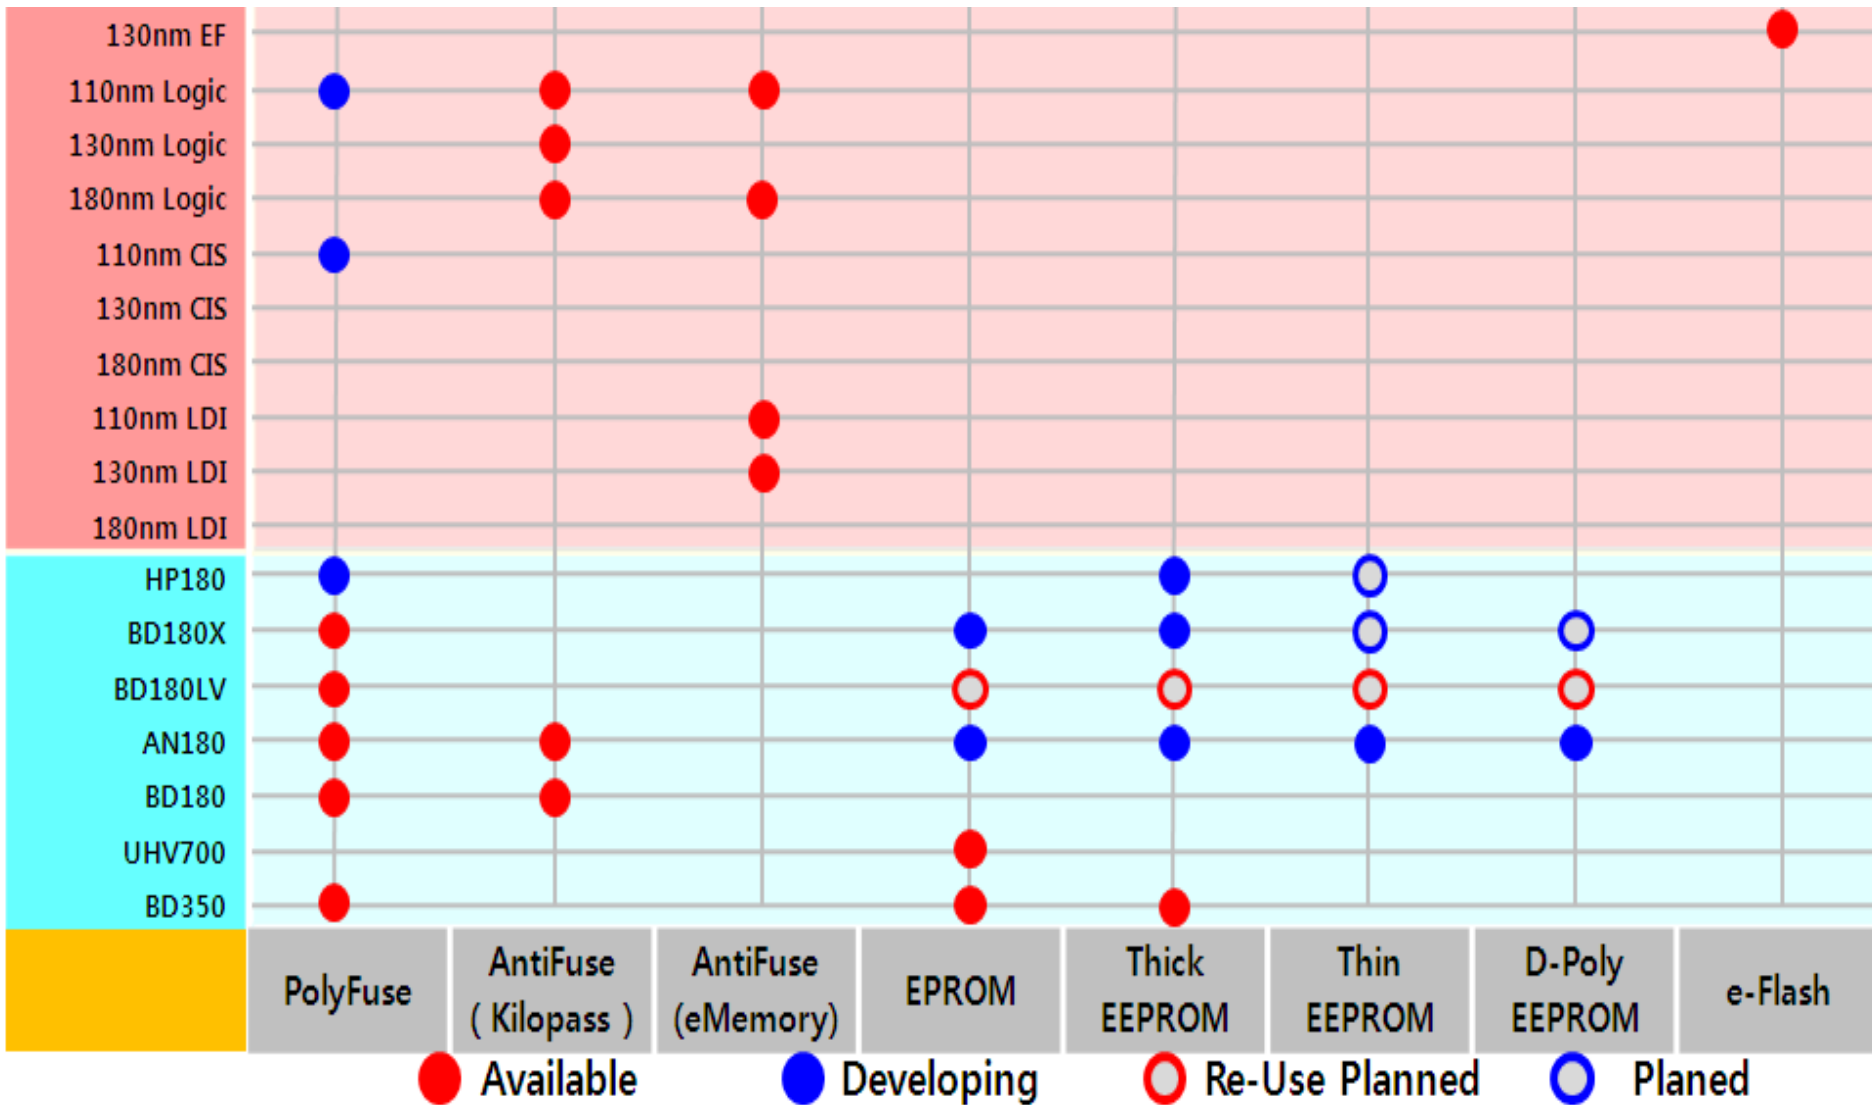

- Alliance with Customers
- Fab Driven
- Clouding & Raining

## IP Clouding Program

- Alliance with Customers : Business with verified IP
- Fab Driven : Foundry dependent IP, shorten D/W
- Clouding & Raining : Verified IP Promotion

- ✓ **DBH interested in followings**
  - **Memory Related**  
**: eFlash Memory, EEPROM, 32-bit MCU**
  - **Interface Related**  
**: MIPI (DSI, CSI), USB3.0**
  - **Basic IP**  
**: LDO, DAC, C-ADC, PLL, and so on**

# AS IP : NVM (OPT/MTP)

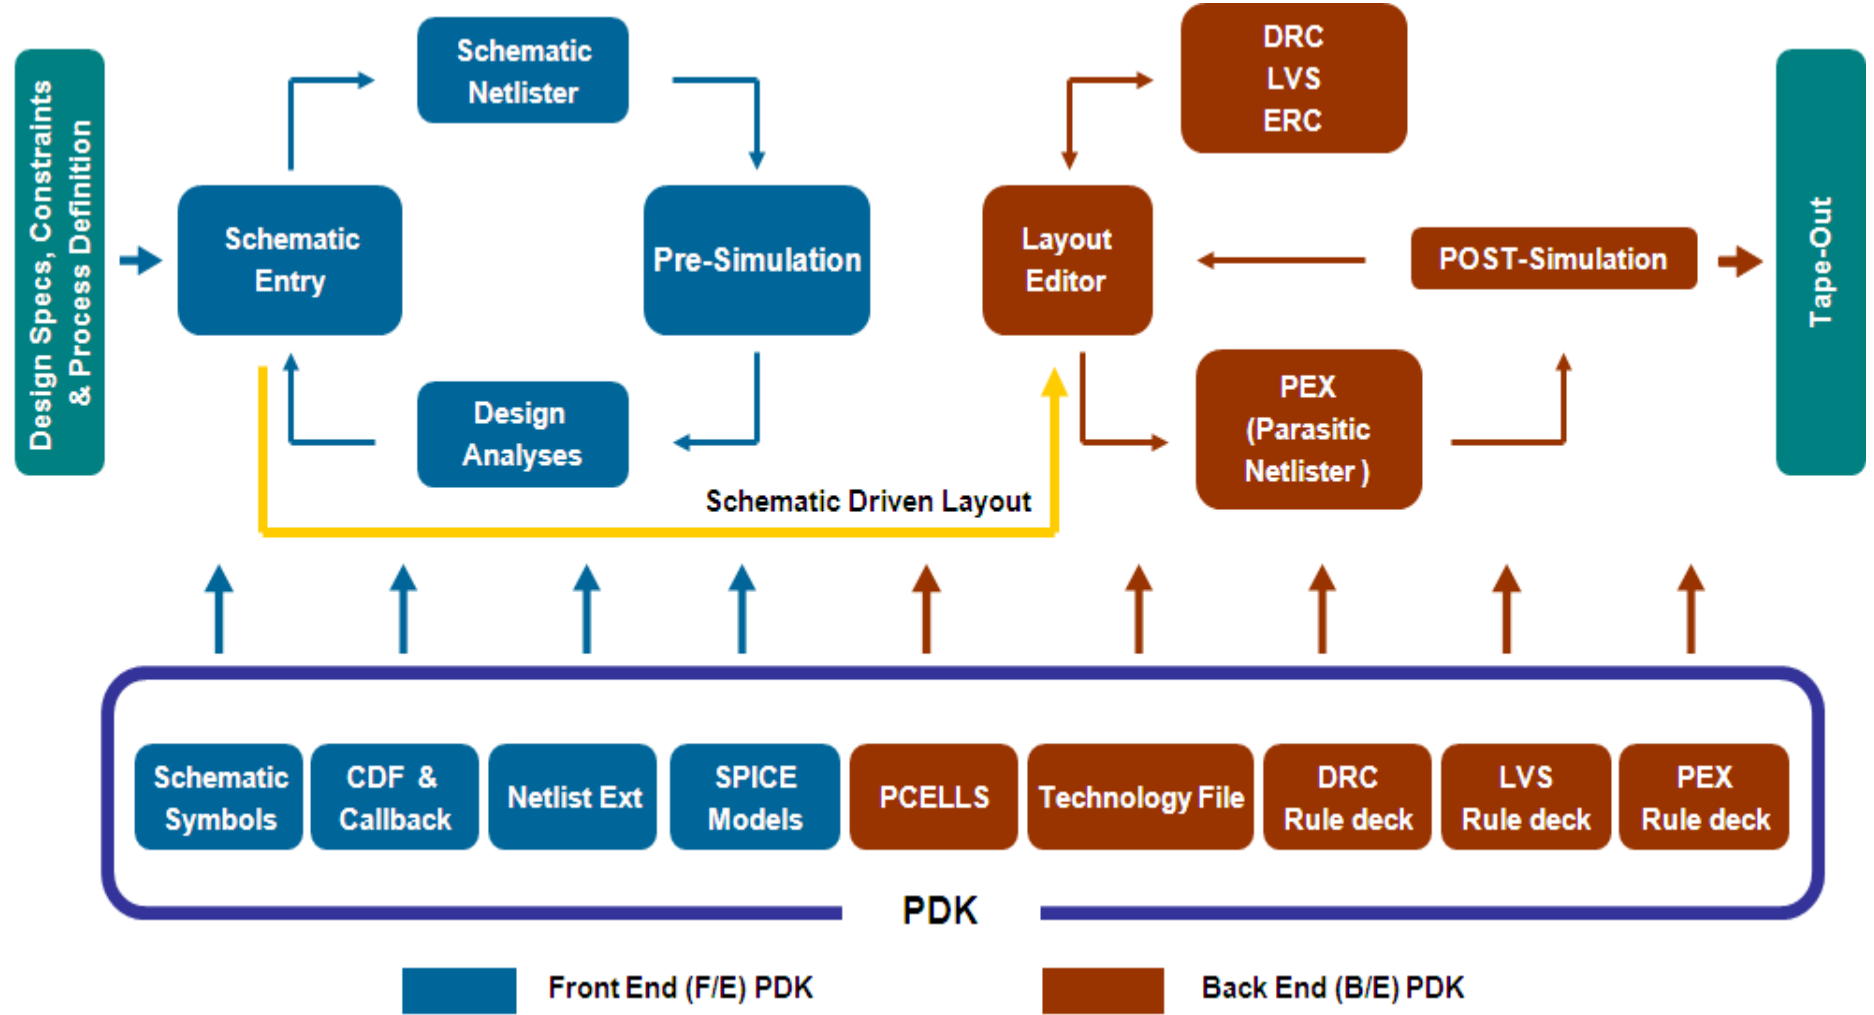

# AS IP : Roadmap – Basic IP

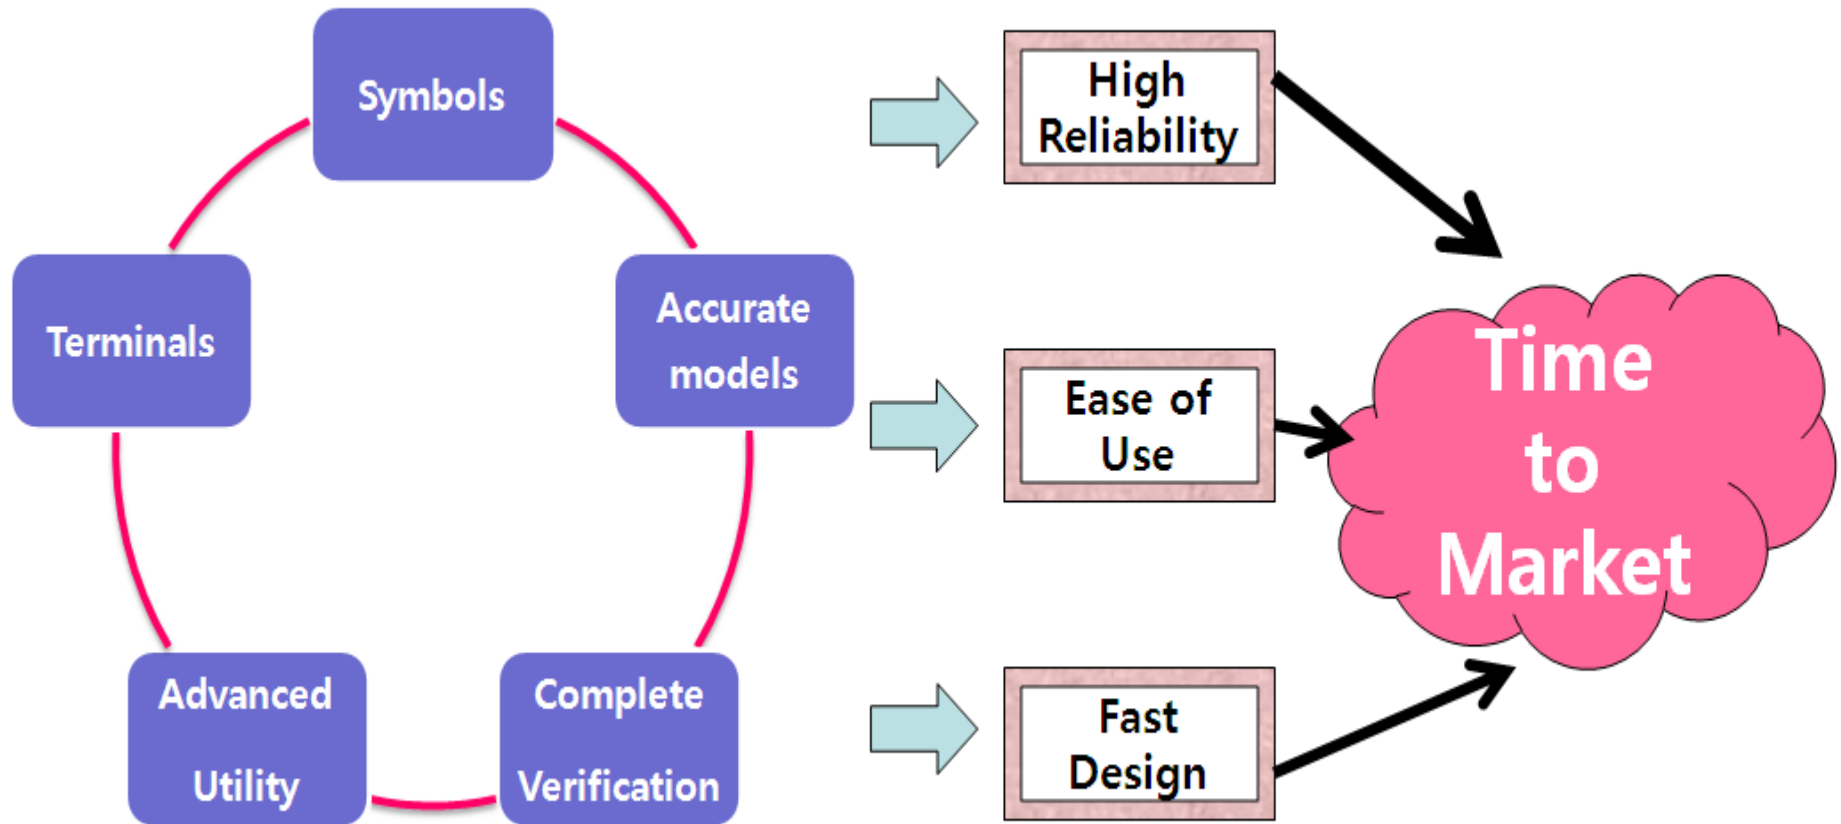

- Introduction
  - ✓ Specialty Foundry Strategy
  - ✓ Technology Enabling
- Application Specific IP (AS IP)
- **Process Design Kit (PDK)**
- Conclusion

# PDK : What is the PDK?

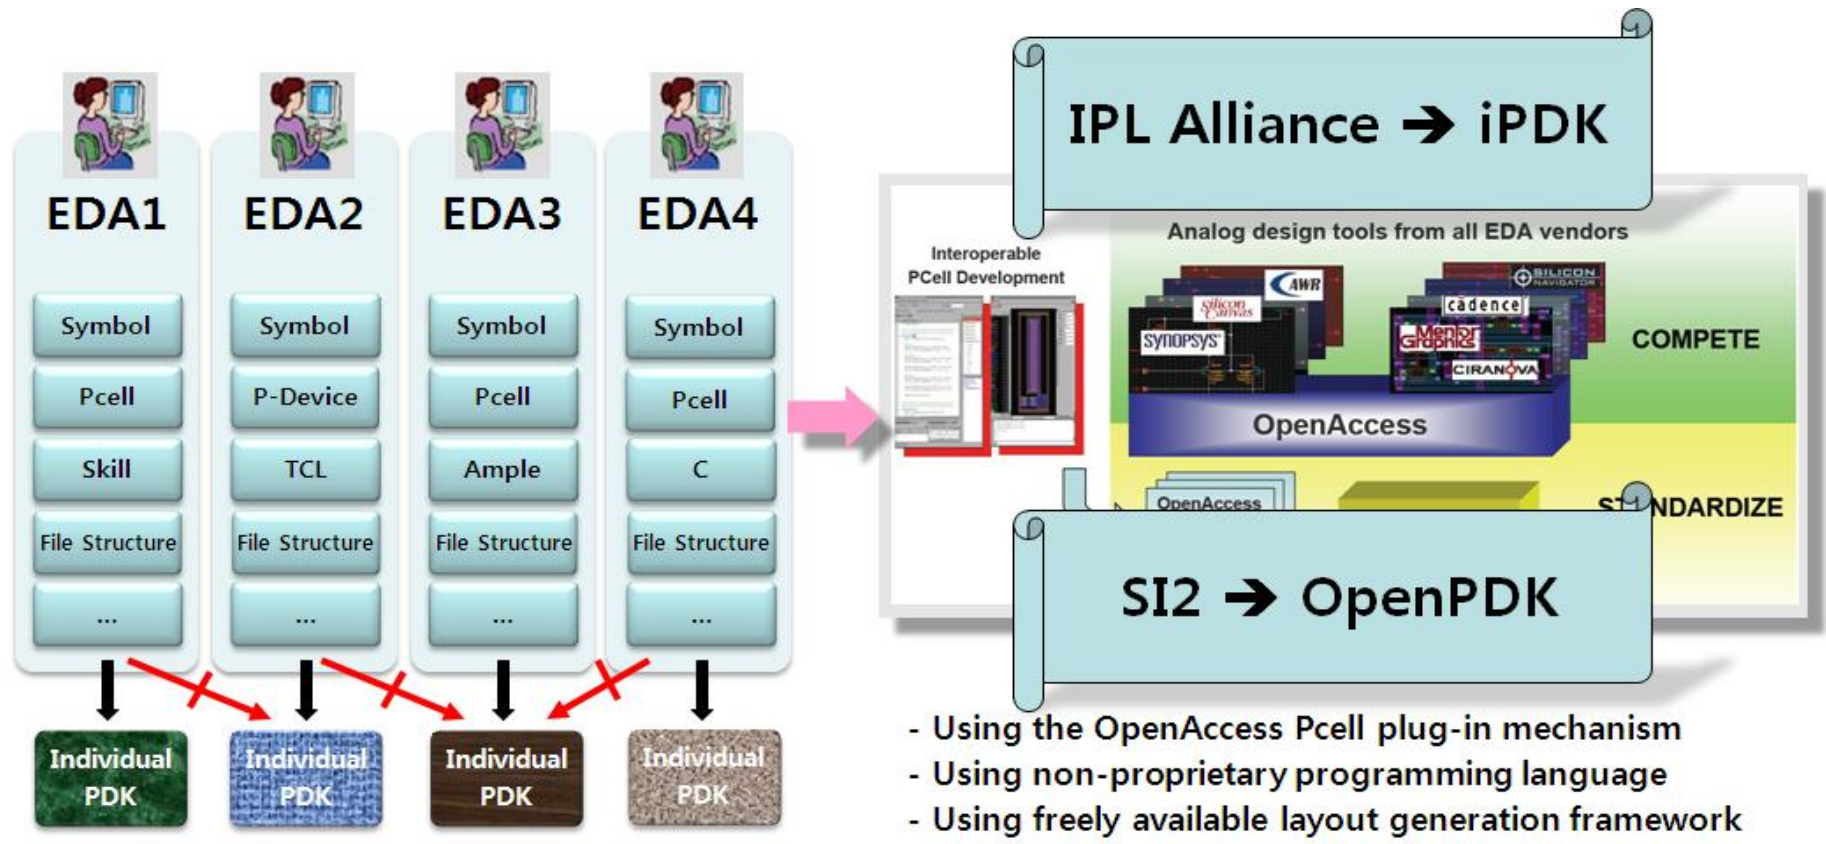

# PDK : What Differentiates PDK?

# PDK : PDK Activities

- ◆ Customers need PDK for their EDA tools
- ◆ Foundry has to support Multi-platform PDK(Cost, Consistency)
- ◆ Need Standard form of PDK

# What is the Benefit of PDK Standardization?

## ✓ For End-user

- Increased design chain choice
- Access to best-in-class tools

## ✓ For Foundries

- Faster service for customers
- Lower costs to support EDA tools

## ✓ For EDA companies

- No need for retooling to new formats
- Can focus on value-added differentiation

# PDK : Roadmap - BCD

# Contents of this Talk

- Introduction
  - ✓ Specialty Foundry Strategy
  - ✓ Technology Enabling
- Application Specific IP (AS IP)
- Process Design Kit (PDK)
- **Conclusion**

# Conclusion

- ✓ **AS IP and PDK are differentiation of Specialty Foundry**
- ✓ **AS IP interest in DBH**
  - : Memory IP, Interface IP, and Basic IP**
  - : IP Clouding**
- ✓ **Quality of PDK & Unified PDK structure**
  - : High Reliability, Easy to Use, Fast Design**
  - : Multiplatform Support**

**Dongbu HiTek**

**Thank You**
